

CRGBDGrabber

```
classDiagram
    CRGBDGrabberOpenNI_PCL --|> CRGBDGrabber
    CRGBDGrabberRawlog --|> CRGBDGrabber
```

The diagram illustrates a class hierarchy. At the top is the 'CRGBDGrabber' class. Below it are two subclasses: 'CRGBDGrabberOpenNI\_PCL' on the left and 'CRGBDGrabberRawlog' on the right. A horizontal line connects the two subclasses, with a vertical line and an upward-pointing arrow from the center of this line to the 'CRGBDGrabber' class, indicating that both subclasses inherit from the base class.
